

Chubb's Employment Practices Liability Loss Prevention Program

CHUBB®

Overview

It may not be possible to completely eliminate the threat of an employment practices liability (EPL) complaint. However, employers can take steps to reduce their EPL risks and to position themselves for a successful defense of EPL complaints that do arise.

That's the idea behind Chubb's Employment Practices Liability Loss Prevention Program. Our experience shows that:

- The best way to develop a successful defense is to proactively apply loss prevention strategies.
- With appropriate loss prevention intervention, the incidence and severity of claims can be reduced.
- Even "insured" claims can cost employers money before their insurance deductible/retention is exhausted. Early intervention by the insurer in potential claims can help to minimize these costs.

Chubb's Employment Practices Liability Loss Prevention Program offers our employment practices liability insurance (EPLI) customers access to state-of-the-art policies and practices, training vehicles, analytical tools, and EPL loss prevention specialists.
